NEED FOR REFORM OF RESEARCH ASSESSMENT

- To adapt to the evolving needs on research
 - ✓ Societal, environmental, economic challenges; Diversity of outputs
- To reflect evolving research processes
 - ✓ Digital transition; Iterative and recursive; Collaborative and open
- To move away from inappropriate uses of metrics
 - ✓ Rewards quantity and publication venue rather than quality;
 - ✓ Does not reward sharing, collaboration and other outputs
- ✓ To further support the quality of research and the attractiveness of research environments

STAKEHOLDER CONSULTATIONS

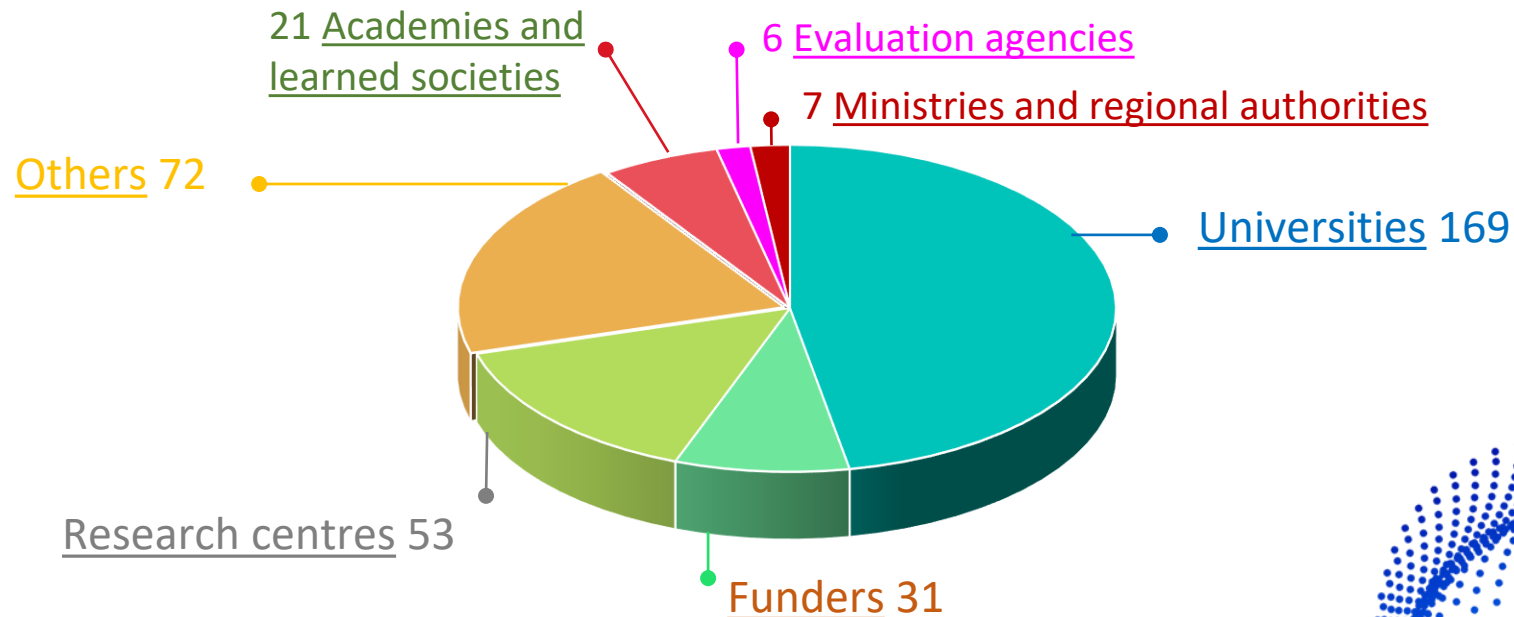

- **In Dec 2020** – moved forward to work with stakeholders in a mayor consultation to stakeholders (academic institutions, funding bodies and other)
- Summary of consultations with stakeholders throughout 2021
- Scoping report in November 2021

<https://data.europa.eu/doi/10.2777/707440>

PARTICIPATING ORGANISATIONS

- 359 organisations from 40 countries expressed their support to the principles in the scoping report and to help drafting an Agreement bringing together a Coalition

THE AGREEMENT ON REFORMING RESEARCH ASSESSMENT

Scoping report

Agreement on principles and way forward
November 2021

Agreement

Commits signatories to act on the basis on commonly agreed principles and commitments, within an agreed timeframe
July 2022

Coalition

Facilitates exchange of information and mutual learning
December 2022

- Objectives, principles and actions that could be agreed between organisations responsible for the assessment of research, researchers, research units and research institutions
- It establishes a way forward for implementation, while respecting organisations' autonomy.
- It is based on shared principles, 10 commitments, and a timeframe (Yr 1, Yr 5)

AGREEMENT ON REFORMING RESEARCH ASSESSMENT

<https://coara.eu/agreement/>

10 OVERARCHING PRINCIPLES

1. Comply with **ethics and integrity** rules and practices.
2. Safeguard freedom of scientific research.
3. Respect **autonomy** of research organisations.
4. Ensure independence and transparency of the data, infrastructure and criteria.
5. Focus research assessment **criteria on quality**.
6. Recognise contributions that advance knowledge and potential impact.
7. Recognise **diversity of research activities, practices, and outputs**.
8. Respect variety of scientific disciplines, research types and career stages.
9. Acknowledge and valorise **diversity in research roles and careers**.
10. Ensure gender equality, equal opportunities and inclusiveness.

4 CORE COMMITMENTS

1. **Recognise the diversity of contributions to, and careers in, research, in accordance with the needs and the nature of the research.**
2. **Base research assessment primarily on qualitative evaluation for which peer-review is central, supported by responsible use of quantitative indicators.**
3. **Abandon the inappropriate uses in research assessment of journal- and publication-based metrics, in particular the inappropriate uses of journal impact factor (JIF) and h-index.**
4. **Avoid the use of rankings of research organisations in research assessment.**

6 SUPPORTING COMMITMENTS

5. **Commit resources** to reforming research assessment as is needed to achieve the organisational changes committed to.
6. **Review and develop** research assessment criteria, tools and processes.
7. **Raise awareness** of research assessment reform and provide transparent communication, guidance, and training on assessment criteria and processes as well as their use.
8. Exchange practices and experiences to enable **mutual learning** within and beyond the Coalition.
9. **Communicate progress** made on adherence to the Principles and implementation of the Commitments.
10. **Evaluate** practices, criteria and tools **based on solid evidence** and the state-of-the-art in research on research, and **make data openly available** for evidence gathering and research.

COALITION FOR ADVANCING RESEARCH ASSESSMENT (CoARA)

<https://coara.eu/coalition>

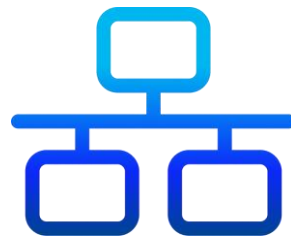

THE COALITION IN A NUTSHELL

- The Coalition offers a space for its members to learn from others' experiences, to advance the process of research assessment reform.
- Signatory organisations, having subscribed to the Guiding Principles and Code of Conduct, are invited to become members of the coalition.
- Coalition members are invited to be involved in: Working Groups and National Communities, as well as other Coalition activities.

COALITION BODIES

- **General Assembly of Members** – All Members. Represents all members of the Coalition. The highest-level decision-making body, meets annually.
- **Steering Board** – Elected. Responsible for the overall oversight, success, strategy, business plan and sustainability of the Coalition.
- **Working Groups** – Voluntary participation. To exchange knowledge, learn mutually, discuss and investigate any topic to advance research assessment and help implement the Members' commitments.
- **Coalition Secretariat** – Supports the administrative, logistical, and other activities of the Coalition.

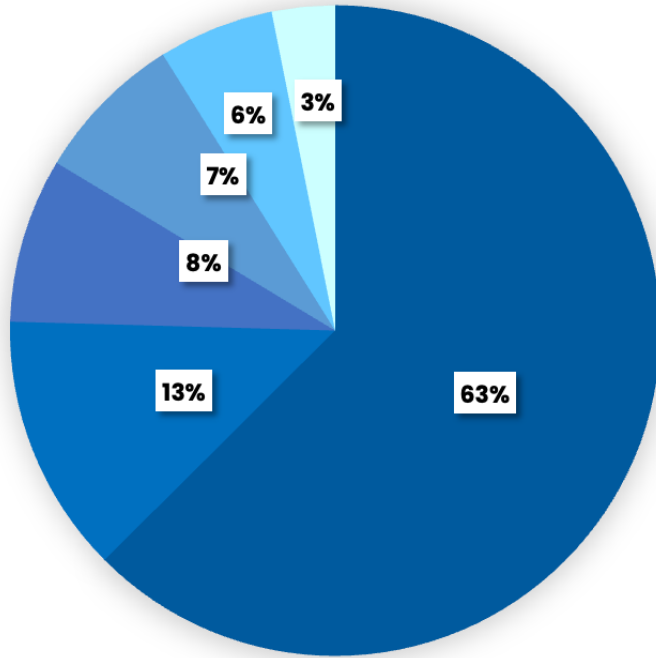

LAUNCH OF THE COALITION

The **Constitutive Assembly**, first General Assembly of CoARA, took place on 1 December 2022. with **> 300 member organisations**

- Formally adopting CoARA's governance documents, rules of procedure and code of conduct.
- Elected the Coalition's Steering Board.
- Approving the preliminary workplan and budget
- European Science Foundation (ESF)–Science Connect was formally appointed as the CoARA Secretariat.

CoARA MEMBERSHIP BY TYPE OF ORGANISATION

In descending order of total share:

- Universities and their associations
- Research centres, research infrastructures, and their associations
- Academies, learned societies, and their associations, and associations of researchers
- Public or private research funding organisations and their associations
- Other relevant non-for-profit organisations involved with research assessment, and their associations
- National/regional authorities or agencies that implement some form of research assessment and their associations

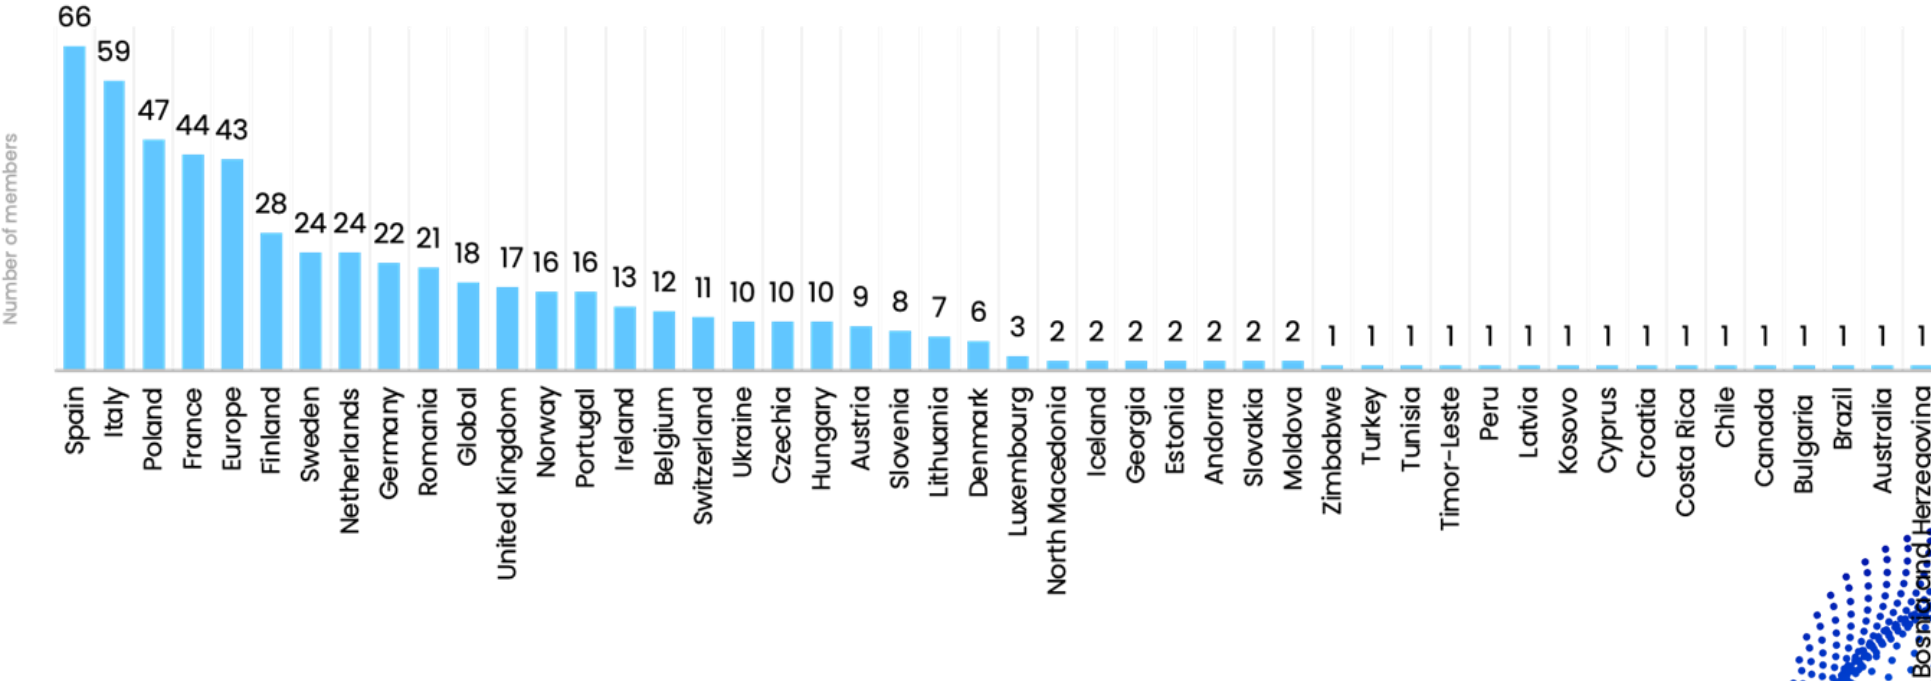

574 member organisations

CoARA MEMBERSHIP BY COUNTRY

WORKING GROUPS

- WGs operate as **'communities of practice'**, providing mutual learning and collaboration are central to CoARA mission:
 - Exchange knowledge, learn mutually, discuss and develop outputs to advance research assessment and help implement members' commitments.
- Working Groups are identified and proposed **bottom-up** by members
 - Three types: Interest, Discipline, and Institution Communities.
- 10 Working Groups were launched during the 1st call launched in March 2023.
- **Second call for WG Launched:** Sept 1, 2023.

WORKING GROUPS

2023 Call 2nd round deadlines published

Eols to be submitted via online form

Opportunity to present Eols to larger CoARA community

Last day to submit full CoARA working group proposal: 09.11.

Results 2nd cut-off 2023 call submissions to be communicated (email to PoCs who submitted + website release of successful WGs)

Detailed feedback to be provided to all submissions

NATIONAL CHAPTERS

- National Chapters will contribute to CoARA work by facilitating the **exchange of knowledge**, **mutual learning** and **discussions** on CoARA-relevant issues specific to different types of organisations of a **given country or region**.
- National Chapters proposed at the initiative of CoARA members.
 - Participation from members is voluntary.
 - Any CoARA member from the given country can participate in call for National Chapter.
- No limit on the number of National Chapters that can be approved. However, no more than one National Chapter approved per country/group.
- 5 national chapters have been launched (**Spain**, Italy, Norway, Poland; Ukraine) and 2 more on the way.

No cut-off date
(monthly process)
